

Trees at Bangalow Nature's Sculpture Gallery

Mature Queensland Bottle Trees (20 Year Old *Brachychiton rupestris*)

Trees at Bangalow offers a rare opportunity in this limited release to acquire advanced, field-grown Queensland Bottle Trees (*Brachychiton rupestris*), available now for extraction and transplanting.

These iconic Australian natives are prized for their:

- Distinctive bottle-shaped trunk
- High drought tolerance
- Suitability for large residential, rural, and commercial landscapes
- Long-term capital value as feature specimens

Why *Brachychiton rupestris*?

- Architectural impact - instantly elevates a landscape
- Low maintenance once established
- Adaptable to a wide range of soils and climates
- Increasingly scarce in larger sizes

These trees are particularly suited to:

- Acreage and lifestyle properties
- Driveway avenues
- Resort and hospitality developments
- Statement entry planting

A statement tree with presence, resilience, and architectural form

We currently have a selection of in-ground trees across a wide size range. (See next page for samples.)

Height	Typical Use	
1-2 metres	Residential gardens, early feature planting	<ul style="list-style-type: none"> ✓ All trees are field-grown (not containerised) ✓ Well-established root systems ✓ Suitable for professional transplanting
2-4 metres	Established landscapes, acreage homes	
4-7 metres	Signature feature trees, estates, commercial projects	

Premium In-ground Stock
